

Wine & Drinks List

This is our new style wine list, our aim was to create a collection of wines that are simple to choose from and easy to understand their qualities.

We have also done away with flowery tasting notes and detailed more information about each variety.

Selecting wines by the grape variety allows you to experiment with new wines that you may not have tried before, without getting out of your comfort zone.

We have selected a range of wines from some of the most interesting and exciting producers from around the globe, both New World and Old.

We have worked closely with our suppliers to create a list that contains the classic grape varieties along side some really dynamic varieties.

We hope you enjoy the collection, don't forget if you need any help, information or advice about any of the wines, please just ask us.

Thanks
Malcolm and Josie

Prosecco is a light style sparkling wine, carbonated prior to bottling. Light and easy drinking, it's all about freshness and lightness of fruit. Taittinger are one of the most consistent Grand marques, using predominantly Pinot Noir in their Cuvée Brut.

The style is light and pure, ideal for indulgent enjoyment as much as celebration. Franciacorta is marvellously refreshing and a delicious drink at all times of the day. This is made with the same grapes and by the same method as Champagne, but because it lies much further South, has lower acidity.
